EUROPEAN FUND FOR THE INTEGRATION OF THIRD COUNTRY NATIONALS

2007-2013

COMMUNITY ACTIONS

CALL FOR PROPOSALS

2011

I. INTRODUCTION

The European Fund for the Integration of third-country nationals (EIF) for the period 2007 to 2013 was established by the Council Decision of 25 June 2007 and is a part of the General Programme Solidarity and Management of Migration Flows (2007/435/EC).

The general objective of the instrument is to provide financial support for actions promoting integration of third country nationals¹ in the Member States of the European Union.

Through the EIF Community Actions programme financial support is given to actions of European interest. Such projects must be transnational and must be implemented by a European partnership.

To ensure the consistency of the European Union's response to the integration of third-country nationals, actions financed under the European Integration Fund should be specific and complementary to actions financed under the European Refugee Fund and the Structural Funds, in particular the European Social Fund.

More Information

For a glossary of terms and definitions used in this call for proposals see ► **the Guide for Applicants - section I**

II. SCOPE OF THE CALL

This call for proposals aims at selecting proposals to be co-funded by the European Commission within the framework of the EIF Community Actions programme.

1. Who may apply?

The call for proposals is open to national, regional and local authorities, non-governmental organisations (NGOs), public or private bodies, university departments, research centres and international organisations.

- 1) Actions should be implemented through the coordination of a partnership. Since these actions are trans-national, the partnership must include at least three organisations (the applicant and two partners).
- 2) Applicants and their partners must be registered² in any of the 26 Member States participating in the European Fund for the Integration of third-country nationals (all the EU Member States except Denmark).

¹ Any person not holding the nationality of an EU Member State

² Not applicable for international organisations.

- 3) The applicant and partners must be from at least three different EU Member States³.
- 4) Proposals must be submitted by a legal person, i.e. the co-ordinator, who carries out the project with at least two other distinct legal entities.
- 5) The call for proposals is open to organisations working on a non-profit basis and with proven experience and expertise in the fields covered, taking into account their respective competences.

Actions may include associated partners from Denmark as well as third countries, but the cost of their participation must be financed entirely by non-EU resources.

►► If you apply for a grant...

- ✓ Verify that a partnership of at least 3 organisations (applicant + 2 partners) is established.
- ✓ Verify that all participating organisations (applicant and partners) are distinct, and that they come from at least three different EU Member States participating in the European Fund for Integration of Third-Country Nationals (exceptions defined in points 2) and 3) above).
- ✓ Verify that all participating organisations (applicant and partners) are non-profit organisations.
- ✓ Verify that the project budget does not include any costs for organisations established in Denmark or non-EU countries.

2. Priorities

On the basis of the policy context and general objectives described in the Annual Work Programme of the EIF Community Actions for 2011, five priorities and related specific objectives will be pursued in this call.

Proposals must address at least one of the five priorities.

Proposals may address a combination of priorities 1, 2, 3 and 4.

Priority 5 is a stand-alone priority as specific provisions apply to it. Proposals addressing priority 5 should not explicitly target other priorities, even if they relate to or contain elements of other priority areas.

A proposed action may aim at several specific objectives listed under a given priority.

Priority 1: Enhance public perception of migration and diversity

Specific objectives:

- 1.1 Promote a better understanding of the contributions of legal migration and migrants to the receiving societies.
- 1.2 Enhance the capacity of public and private bodies, to reflect and manage increasing diversity.
- 1.3 Promote intercultural dialogue and education measures to combat racism and xenophobia.
- 1.4 Improve the availability and quality of data to present a balanced picture of the situation of migrants in the receiving societies.

³ An international organisation shall be deemed to be established in a Member State other than any Member State in which another partner is established.

Priority 2: Enhance diversity management in neighbourhoods

Specific objectives:

- 2.1 Support the creation of inclusive neighbourhoods and bottom up initiatives for local participation.
- 2.2 Promote access to public and private goods and services in a non-discriminatory way.
- 2.3 Promote cooperation between national and local administrations to support neighbourhood integration.

Priority 3: Enhance immigrants' participation in all aspects of collective life

Specific objectives:

- 3.1 Promote effective language and introductory courses to support the entry into employment and other important arenas of the receiving society.
- 3.2 Promote involvement of immigrants in relevant consultative bodies at national and local level.
- 3.3 Promote the creation of networks of migrants' organisations.
- 3.4 Assess and encourage measures for facilitating immigrants' access to voting rights.

Priority 4: Enhance integration measures targeting disadvantaged immigrant groups

Specific objectives:

- 4.1 Address specific needs of young migrants, migrant women and elderly, including unaccompanied minors with a legal status⁴ and victims of trafficking.
- 4.2 Promote measures to address the challenges of particularly disadvantaged migrant groups.

Priority 5: Coordinate existing research activities in the field of migration and integration, including the role of sending countries in fostering integration of third-country nationals

►► If you apply for a grant...

- ✓ Verify that your proposal responds to at least one of the five priorities.
- ✓ Verify that the proposal addresses one or more specific objectives listed under a given priority.
- ✓ Verify that your proposal addresses only one priority in case this is priority 5.

⁴ Please note that unaccompanied minors which are asylum seekers, refugees and beneficiaries of subsidiary protection are not eligible as they are already covered by the European Refugee Fund

3. Duration and start date

For proposals addressing priorities 1-4, the initial duration of a proposed action must not exceed 18 months.

For proposals addressing priority 5, the initial duration of a proposed action must not exceed 24 months.

All co-financed actions will have to start as soon as possible after the conclusion of a grant agreement.

A grant may be awarded for an action which has already started only where the applicant can demonstrate the need to start the action before the grant agreement is concluded. In such cases, expenditure eligible for financing may not have been incurred prior to the date of submission of the grant request, following publication of the call.

4. Budget and financial provisions

In 2011, the indicative budget available for the EIF Community Actions programme is EUR 4.955.000.

Actions are funded in the form of co-financing. The EU's financial contribution may not exceed 90 % of the total eligible cost of the action; the remaining 10% must be financed by the partnership or other sources. The necessary co-financing by the applicant, by potential partners and/or by other third parties shall be confirmed before a grant agreement with the Commission is concluded.

For proposals addressing priorities 1-4, the requested EU co-financing must be at least EUR 400.000 and not more than EUR 1.000.000.

For proposals addressing priority 5, the requested EU co-financing must be at least EUR 750.000 and not more than EUR 1.500.000.

Details of the cost of a proposed action must be provided in the Budget Form. Costs must be necessary and clearly related to the action.

The co-financing of an action under this call for proposals cannot include funds obtained from another programme financed from the budget of the European Union.

Where the application concerns grants for an action for which the amount exceeds EUR 500 000, an audit report produced by an approved external auditor shall be submitted. That report shall certify the accounts for the last financial year available. The thresholds shall apply to each participating organisation (applicant or partner).

Should a project be selected for funding, a grant agreement will be concluded between the applicant organisation and the European Commission. This agreement is a standard agreement, and its terms and conditions may not be altered or subject to negotiation. If the successful applicant is an international organisation, a contribution agreement or any other specific contract agreed between the international organisation concerned and the European Commission will be used instead of the standard grant agreement, provided that the international organisation in question offers the guarantees specified in article 53d (1) of the Financial Regulation.
